## SKILLS

**Programming Languages:** C, Python, Java, SQL  
**Databases:** Oracle, MongoDB  
**Web Development:** HTML, CSS, JavaScript, Node.js, Express.js, React, Mongo DB  
**DevOps/Tools:** Git/GitHub, Docker, VirtualBox, VMware, VS Code  
**Cybersecurity Tools:** Nmap, Wireshark, Metasploit, Autopsy  
**Operating Systems:** Windows, Kali Linux, Red Hat Linux, Ubuntu  
**Soft Skills:** Problem-Solving, Communication, Leadership, Adaptability, Time Management

## CERTIFICATES

## **PROJECTS**

### **Sentinal Band**

Built a wearable safety device using Arduino, GSM, GPS, and sound sensors to detect emergencies and send real-time location via SMS for personal safety.

### **Eventnest**

it is a online conventional hall booking platform.

### **CryptPact**

A cryptographical tool used to chat and storage files securely. It is a secure, interactive web platform designed to bridge the gap between theoretical cryptography and real-world application through hands-on practice.

### **BhuShakhi**

A group project, which is helpful to the farmers by a website. This is userfriendly website. Even the zero knowledge people are also easily handle

## **ORGANIZATIONS**

### **RHCSA Workshop Coordinator:**

Conducted a week-long RHCSA workshop for 200+ students, showcasing teamwork and communication.

### **Volunteer – Local Health Camps:**

Assisted in organizing free medical check-ups and health awareness sessions for rural communities

### **VIVINYA -2k25**

Organized and coordinated events at VIVINYA 2K25, a national-level IEEE technical fest at VVIT University, managing participant coordination and event logistics.

## **EXPERIENCE**

### **IEEE-Drafting and Editorial Committee Lead**

03/2025 – 12/2025

Worked as a lead for Drafting and Editorial Committee in IEEE Student Body. By this I improved my leadership qualities and communication skills.
